

SYNTAC RIF

Natural Synthetic Retanning Agent

SYNTAC RIF is a highly light and heat-fast, phenol and formol-free combination of natural and synthetic retanning products.

Properties

SYNTAC RIF imparts excellent bleaching effect, heat and light fastness, filling and good buffability to leather. It is compatible with all products used in leather retanning and fatliquoring. **SYNTAC RIF** does not alter dyeing intensity.

Typical Analysis

Aspect: White powder
Ionic character: Anionic
Active matter (%): 93.5 - Minimum
pH (10% w/v Aqueous Sol.): 4.0 – 4.5

Application

SYNTAC RIF may be used either on its own or in combination with other vegetable, synthetic and/or auxiliary extracts/products.

It is recommended to use **SYNTAC RIF** as follows:

Upper ooze: 3 -7 % calculated on the weight of the shaved hides

Glove ooze leather: 2 – 8 % calculated on the weight of the shaved hides

Crust leather: 2 – 8 % calculated on the weight of the shaved hides

Split leather: 3 – 7 % calculated on the weight of the shaved hides

Storage

The properties of **SYNTAC RIF** shall remain unchanged providing it is stored in a dry, aired place, in tightly closed packaging and protected from sunlight.

Presentation

SYNTAC RIF is available in powder form, packed in 25 kg bags (net weight). It may also be supplied in bulk or pallets of up to 1.6 tons in weight.

Toxicological Information
