

WEIBULL AUTO CF

WEIBULL AUTO CF is a modified vegetable extract of Mimosa which provides high stability to light and heat.

Properties

Due to its chemical structure modifications, **WEIBULL AUTO CF**, results in an extract that provide extremely clear leather, high stability to light and heat, with very good physical-mechanical test results, keeping a some of vegetable characteristics of tannin as: filling, buffing, embossing retention, retanning and dispersion dyeing uniforms.

WEIBULL AUTO CF has been specially developed for the manufacture of leather upholstery (automotive and furniture) and is recommended for application in retanning of a wide range of articles, such as hides to leather and leather production chrome free.

WEIBULL AUTO CF is soluble in water.

Typical Analysis

Physical aspect: Hygroscopic, dust-free, brown powder

Ionic character: Anionic

PCP: Exempt

Active matter (%): Minimum 93.5

pH (20% v/w Aqueous Sol.): 4.3 - 5.3

Application

WEIBULL AUTO CF may be used either on its own or in combination with other vegetable, synthetic and/or auxiliary extracts/products.

It is recommended to use **WEIBULL AUTO CF** as follows:

Chrome Free:

15 - 25 % calculated on the shaved hide weigh

Automotive upholstery (from wet-blue):

3 - 8 % calculated on the shaved hide weigh

Furniture upholstery (from wet-blue):

5 - 10 % calculated on the shaved hide weigh

Storage

The properties of **WEIBULL AUTO CF** powder shall remain unchanged providing it is stored in a dry, aired place, in tightly closed packaging and protected from sunlight.

Presentation

WEIBULL AUTO CF is available in powder form, packed in 25 kg bags (net weight). It may also be supplied in bulk or pallets.

Toxicological Information
